

Coverage against unplanned medical emergencies is surprisingly affordable.

## Facts You Should Know

- Emergent Ground Ambulance transports can easily surpass \$2,000, and can reach as high as \$5,000.
- Emergent Air Ambulance transports frequently cost more than \$40,000, reaching as high as \$70,000.
- If you are in need of specialized care and can be transported on a non-emergent basis, it is not uncommon for a medically equipped plane to cost you in excess of \$20,000.
- Most people assume that their health insurance will cover most, if not all the costs for these emergent transports. Usually the opposite is true, leaving you with financially crippling bills.
