CULTURE, CULTURE, CULTURE

TAKE AWAY

TAKEAWAYS: *What can I walk away with?*

- ❖ Why are you doing this?
 - ❖ What need are you trying to fill?
 - ❖ What problems are you trying to solve?
 - ❖ How are you going to know if your efforts are successful?
 - ❖ What questions are you going to have?
 - ❖ How will you communicate with the different levels of stakeholders?
- What is the end result going to be? Now map backwards and make sure those steps are in place for success. Ensure quality assurance with backwards design.

THANKS!
